

SYSTÈMES D'EMBALLAGES | PACKAGING SYSTEMS

Operator is feeding vinyl flooring rolls of different diameters and lengths manually on the infeed conveyor, the machine will stretch wrap them and with the separation module will cut the stretch film in between the rolls leaving enough film at the extremities of each rolls, continous wrapping non stop !!

**SOLUTECH PACKAGING
SYSTEMS INC. STRETCH WRAPPING
EQUIPMENT MANUFACTURER**

**SOLUTECH SOLUTION WAS TO REPLACE
A COSTLY, SHRINK WRAPPING MACHINE BY
A STRETCH WRAPPING SYSTEMS REDUCING
FILM COST, MAINTENANCE COSTS
AND MAINTAINING THE SPEED REQUIREMENT !**

This Solutech Horizontal machine was made to do :

- Diameter from 4" to 7"
- Avg 300 rolls per hour !!
- Continous motion wrapping.
- Automatic separation module with a heated cutting blade.
